

Representative's Report

Critical Injuries and Deaths: Reviews and Investigations

Update #26

Purpose

The purpose of the Representative for Children and Youth's (RCY) reviews and investigations of child deaths and critical injuries is to identify and thoughtfully analyze issues – particularly in service delivery. The intent is to help prevent similar deaths or injuries in the future and to inform improvements to services.

Independently reviewing, investigating and reporting out on these deaths and critical injuries are essential elements of public accountability and promoting public confidence in the child-serving systems. These reviews and investigations are done in a timely, fair, respectful and thorough manner.

Reporting Period: October 1 2015 – January 31 2016¹

During this reporting period, 217 critical injuries and 36 deaths of B.C. children and youth who were in care or receiving reviewable services within the previous year were reported to the RCY.

These have all had an initial screening by the Representative and staff to determine whether the injury or death meets the criteria for an RCY Review (defined on page 7). A summary of these initial screenings is on the following pages.

Reporting of Critical Injuries and Deaths

The Representative released a Special Report, *Reporting of Critical Injuries and Deaths to the Representative for Children and Youth*, on Dec. 6, 2010. The report was issued as a result of an ongoing and growing concern that the Ministry of Children and Family Development (MCFD) was not reporting all of the critical injuries to the Representative that should have been as outlined in the *Representative for Children and Youth Act*. The Representative recommended that MCFD develop and implement a Critical Injury and Death Notification Policy that would ensure the practice of reporting injuries and deaths is consistent, timely and effective. Further, the Representative recommended the policy be communicated to all MCFD staff, delegated Aboriginal Agencies, and service provider partners or public bodies, and be fully implemented by March 1, 2011.

That policy has now been finalized and since March 1, 2011, MCFD has been reporting critical injuries in a number of areas that were not historically reported to the Representative. An updated policy was introduced in June 2015 and training completed on the updated Reportable Circumstances Policy in the same month. Subsequently, the number of Reportable Circumstances received by the RCY has increased approximately threefold.

¹ This information is based on reports received by the RCY Office at the time of this update. These numbers may change if additional reports of critical injuries or deaths that occurred in this reporting period are subsequently received by the RCY, or if additional information is received.

Critical Injuries:

Of the 217 critical injuries, 59 were determined not to have met the criteria² for an RCY Review under the Representative's legislative mandate (explained on page 7).

RCY Reviews are being undertaken on the remaining 156 critical injuries. Decisions about whether to review two critical injuries are pending the receipt of further information.

REPRESENTATIVE FOR
CHILDREN AND YOUTH

Select Standing Committee Referrals Update:

The Select Standing Committee on Children and Youth referred an additional 20 deaths and two critical injuries to the Representative for Children and Youth. These deaths and critical injuries are not included in the Overall Summary numbers above. These deaths and critical injuries all occurred prior to June 1, 2007, at which time legislation was passed giving the RCY power to conduct reviews and investigations. All 20 deaths and both critical injuries have been reviewed and have resulted either in aggregate reviews and/or investigations, or no further action.

The investigations and reviews referred to above have been publicly released and are available at www.rcybc.ca.

DEFINITIONS

RCY Initial Screening:

The RCY receives reports of critical injuries or deaths of children who were in care or receiving reviewable services at the time of the incident, or in the year previous. These reports receive an initial screening to determine if they meet the criteria, under the *Representative for Children and Youth Act*, for an RCY Review (defined below).

RCY Review:

Critical injuries and deaths that do meet the criteria under the *Representative for Children and Youth Act* proceed to an RCY Review, which examines the circumstances and the services delivered to the child.

This may include examining medical records, MCFD case files, relevant policies and standards. As well, consultation with the Coroners Service and discussions with service providers, caregivers and parents may occur.

The purpose of an RCY Review is to determine if there are service delivery issues or other circumstances that would require an RCY Investigation (defined below). Reviews are also aggregated to identify and analyze recurring circumstances or trends in order to improve the effectiveness and responsiveness of reviewable services.

RCY Investigation:

The Representative initiates an RCY Investigation when the circumstances of the injury or death are suspicious, self-inflicted, or when there is a question as to whether neglect, abuse or services the child received may have played a role in events leading to the injury or death.

By law, an RCY Investigation must not inhibit the work of others. An RCY Investigation does not proceed until police investigations and criminal court proceedings are completed. If there are no criminal proceedings, the RCY Investigation proceeds when other processes, such as ministry reviews or coroner's inquests, are completed, or one year after the incident, whichever is earlier.

RCY Investigation reports are presented to the Select Standing Committee on Children and Youth, and publicly released.

Aggregate Reviews:

These are conducted to identify and analyze recurring circumstances or trends in child deaths and critical injuries. This is in keeping with recommendations made in the 2006 *BC Children and Youth Review*, in which the Hon. Ted Hughes noted: "The primary method of reviewing child injury and deaths will be to examine aggregated information, and identify and analyze trends that will inform improvements to the child welfare system as well as broader public policy initiatives."

Reviewable Services:

Reviewable services are services or programs under the *Child, Family and Community Service Act* and the *Youth Justice Act*, mental health services for children; addiction services for children; services to children with special needs delivered by MCFD and Community Living B.C.; and additional "designated services" that may be designated under a Regulation.
